

## TERMINAL B PASSENGER PICKUP AREA

- **PARKING STRUCTURE 3 (P3) FIRST LEVEL WILL BE NO-COST PASSENGER PICKUP AREA**
- **OPEN WEDNESDAY, OCTOBER 9<sup>TH</sup> AT 3AM**
- **P3 WILL SERVE AS AN ALTERNATE PASSENGER PICKUP AREA IN ADDITION TO THE TBIT CURB FRONT**

The Terminal Core Project significantly reduced the footprint of the arrival level of Tom Bradley International Terminal (TBIT). The areas closed due to construction accounts for half of the exiting passenger loading area. In order to provide an additional passenger loading area, the ground level of P3 has been converted from revenue parking to a no-cost passenger pickup area. It will serve as an alternate area for TBIT arriving passengers in addition to TBIT curb front. It will open on October 9<sup>th</sup> at 3am then thereafter the operating hours will be from 7am to midnight – subject to change based on demand.

The P3 pickup area will accommodate a minimum of 33 private vehicles for active loading along new “curbs” inside the structure. This is equivalent to 825 feet of curb for pickup of arriving TBIT passengers, which is more than what was available prior to the terminal construction. Passengers will have the option to use either the curb in front of TBIT or first level P3 for pick up. P3 will be staffed with LAWA traffic officers, ABM staff, and iCare members. Collectively, they will provide customer service, use-efficiency, and enforcement. Airport Police and Airport Operations personnel will also provide assistance. New wayfinding signs to P3 pickup area will be displayed the night of the opening. It will help passengers and drivers orient themselves and navigate to P3.

For questions or comments regarding this advisory please contact Landside Operations Manager, Richard Chong at [rchong@lawa.org](mailto:rchong@lawa.org)
