3. Terminal 2 / 3: Construction Update

- Construction continues on the Delta Sky Way Program to renovate Terminals 2 and 3
- Terminal 3 is closed to the public after being demolished in 2020 to build the new terminal from the ground up; all operations continue from Terminal 2
- Departures and Arrivals Level pick-up and drop-off lanes remain restricted as temporary pedestrian walkways are in place to detour guests around construction
- Upon completion of the project, the “Head House” - the new secure connector building pictured below - will provide connectivity between Terminals 2 and 3 as well as access to and from the Automated People Mover
